# PITTMED

THESE ARE NOT ICE CUBES

A collection of various translucent, blue-tinted biomaterials, some resembling ice cubes, arranged on a dark surface. The materials have different shapes and textures, including a large square block, a circular disc with a hole, and several smaller, irregular pieces. The lighting is dramatic, highlighting the edges and surfaces of the materials against a dark background.

HEAL THYSELF,  
WITH A LITTLE HELP FROM BIOMATERIALS
